UNIVERSITY OF EMBU

OFFICE OF CAREER SERVICES

Skills Development Plan

Student Information

Field	Details
Student Name	Howard
Program	Computer Studies
Department	CIT
School	Pure and Applied sciences
Year of Study	2026
Career Interest / Field	AI/Machine Leaarning
Career Development Program Level	☐ Level 1
Submission Date	28/10/2026

1. Career Objective

To develop practical expertise in software engineering and machine learning workflows to build intelligent scalable data-driven systems.

2. Skills Development Plan

No.	Skill to Develop	Current Proficiency (Beginner / Intermediate / Advanced)	Improvement Strategies	Resources / Tools Needed	Timeline	Expected Outcome
1	Git/Github	3	Do mini projects	Laptop	2 weeks	Master git version control
2	Python	3	Do atleast 3 projects a week	Laptop/PC	3 weeks	Write and Understand python code
3	Web Development	4	Improve my webpage	Phone/Laptop	4 days	Build and deploy websites/webpages
4	C (programming language)	1	Practice and build projects	Laptop/Phone	3 weeks	Write and Understand C code

3. Action Plan & Milestones

Milestone	Activities	Completion Date	Evidence of Completion (Certificate, Project, Portfolio link, etc.)	Status
1	Created a github account and pushed projects	5/10/2026	https://github.com/howard-einstein	☐ Completed
2	Created a face recognittion program using python	18/10/2026	https://github.com/howard-einstein/its-giving	☐ Completed
3	Updated my webpage	26/10/2026	howard-saint.netlify.app	☐ Completed

4	Started learning C in w3schools	N/A	N/A	☐ In progress

4. Potential Support & Mentorship Needed

(List individuals, organizations, or platforms that can support skill development)

Support Needed	Source/Mentor/Platform	How They Will Help
Learning C	w3schools	Understand and write C coding

5. Monitoring & Reflection

(To be filled after completing plan or at review stage)

What did I learn?	Challenges faced	How I will improve moving forward
General programming	Setting up compilers	Write more programs
