Skills Assessment Report

This report summarizes your self-assessment and identifies key strengths to leverage and growth areas to develop for your career goals.

Student Information

Field	Details
Student Name	Howard
Program	Computer Science
Department	CIT
School	Pure and Applied Sciences
Year of Study	2026
Career Interest / Field	AI and Machine Learning
Career Development Program Level	☐ Level 1
Submission Date	27/10/2026

Explanation: Your Proficiency Scale (1-5)

This scale is designed to help you honestly and consistently rate your ability level for each skill. Please base your rating on your current capability.

Proficiency Level	Score	What It Means
Novice	**1**	**Awareness / Theoretical Knowledge.** You have a basic understanding of the concept but little to no practical experience. You may have read about it or taken an introductory course.
Beginner	**2**	**Limited Experience.** You have applied this skill with significant guidance and supervision. You can perform basic tasks but are not yet proficient or independent.
Competent	**3**	**Independent Application.** You can reliably perform this skill without supervision. You are comfortable with most routine tasks and

Proficiency Level	Score	What It Means
		can handle common challenges that arise. This is a solid, functional level.
Advanced	**4**	**Consistent Mastery & Mentoring.** You are highly proficient and can handle complex or non-routine applications of this skill. You often guide others, improve processes, and are considered a "go-to" person in this area.
Expert	**5**	**Strategic Authority & Innovation.** You are recognized as an authority on this skill. You develop new methods, set best practices, and apply the skill strategically to solve high-level problems or drive innovation

Category	Skill	Your Proficiency (1 - 5)	Target Proficiency (1 - 5)
Key Strengths	Git/Github	3	5
	Web Development	2	5
	Python	2	5
	GNU/Linux	4	5

Category	Skill	Your Proficiency (1 - 5)	Target Proficiency (1 - 5)
Growth Areas (Skill Gaps)	C (Programming Language)	1	5
	Database Management Systems	1	5
